Wherever you go

At home, across the country, and around the world—the power of Blue is with you.

Locally, our expansive network is built on strong relationships with providers, hospitals, and specialists.

Across the United States, you can see in-network providers anywhere in the country with the BlueCard® program.

Around the world, you can get care in nearly 200 countries and territories with the Blue Cross Blue Shield Global Core program.

We're in your corner—
wherever that may be.

Whenever you need care

Our purpose is to improve customers' lives by making healthcare work better. One of the main ways we do that is by giving you access to care when and where you need it.

Network Backed by the Blue Cross Blue Shield Association, Premera Blue Cross has the largest provider network in the country. More than 90 percent of doctors and hospitals nationwide are in our broadest network, so it's easy to get high-quality care at the best possible price.

Primary care In a recent study, over a third of Americans reported having trouble finding a doctor within the past three years.* To address the shortage of doctors, Premera is investing in educational programs to increase the number of future primary care providers.

Virtual care With so many options, you can get treatment by phone, text, or video wherever you go and whenever you need it:

Improving primary care access

In Washington, where Premera is headquartered, the company has teamed up with Kinwell Medical Group to expand primary care services for Premera members across the state.

Whatever kind of care you need

You have many ways to get your best care.

24-Hour NurseLine (\$0) If you have a health concern but are uncertain about what to do next, consult with a registered nurse by calling the free 24-Hour NurseLine to discuss your symptoms and get advice on the best way to receive care. The number is available on the back of your member ID card and in the Premera mobile app.

Virtual care Avoid the hassle, wait, and cost of visiting a provider in-person by receiving care from in-network providers, therapists, and other specialists— on the go or from the comfort of home. Check out the Premera MyCare mobile app for more information.

Office visit (\$) Visit a provider's office to get examinations, x-rays, lab work, and other in-person medical services.

Urgent care (\$\$) Urgent care clinics can provide care for illnesses like ear infections, the flu, sprains, or other minor injuries.

ER (\$\$\$) Go to the closest emergency room for immediate care for serious or life-threatening conditions like severe abdominal pain, shortness of breath, sudden numbness, loss of consciousness, or broken bones.

How ever you feel physically

Some health issues aren't simple.

If you find that you need help with a chronic condition, illness, or hospitalization, personal health support clinicians are available to provide assistance based on your needs.

When you work with **Personal Health Support**, you'll be better able to:

- Manage a condition, such as asthma, diabetes, or heart disease
- Take care of yourself or a loved one to prevent readmission after a hospital stay
- Ask the right questions about an illness or procedure

Current member? Connect with a personal health support clinician by calling **888-742-1479**.

How ever you feel mentally

Sometimes it's not a physical ailment that disrupts our lives.

We may find ourselves unable to shake feelings of sadness, exhaustion, or anger. We may rely too much on substances, such as alcohol, to get us through the day. In fact, the National Alliance on Mental Illness (NAMI) reports that 1 in 5 U.S. adults and 1 in 6 U.S. youth aged 6–17 experience mental illness each year. And, tragically, suicide is the second leading cause of death among people aged 10–34.*

Every Premera plan covers mental health visits the same as a standard office visit with your primary care provider. There are no visit limits. And you have many choices for getting care, so you can find the type of care that fits your life and your needs, whether that's a virtual visit, an in-person appointment, or an in-patient stay.

Premera is the official health plan of the Seattle Kraken NHL team. We've partnered up to help break the stigma of mental health and to encourage people to seek care. Check it out at premera.com/hockeytalks.

Find out more about getting mental health or substance use care at premera.com/visitor/mentalhealth.

You'll get no-cost preventive care

When you get routine preventive care from an in-network provider, you don't pay for it—your health plan does.

Under the Affordable Care Act, all health plans cover certain preventive services with no out-of-pocket cost to you, such as:

- Routine wellness exams
- Screenings and tests
- Vaccinations
- Medications and supplements
- Reproductive and women's health

Note: This is not a complete list of covered preventive services. Services within the above categories may have age, risk, and other requirements to be considered preventive. Go to premera.com/visitor/care-essentials for more information about preventive care. Current members can sign in at premera.com for specific benefits covered by your plan.

Check with your primary care provider
to find out what services are right for you.

And high-quality, low-cost virtual care

Whether you are seeking urgent or mental health care, our virtual care services prioritize your needs and provides first-rate care.

Illness can occur at any time. So why wait for office hours to have your medical concerns addressed? Providers are just a few clicks away, ready to offer you the care you need. Avoid the wait and cost of in-person care with a virtual care visit instead.

Terms to know

Formulary

A list of prescription drugs covered by a prescription drug plan. Also called a drug list.

Tier

Within a formulary, medications fall into categories or levels, each with a different copay or coinsurance.

Copay

A set fee you pay when you get a prescription filled. The copay may vary depending on which tier drugs are in.

Coinsurance

Your share of the cost of medication. For example, if your plan pays 90%, your coinsurance (the part you pay) is the remaining 10%.

Save on prescriptions

Keep more money in your wallet by using these easy tips.

Current member?

Sign in to your account on premera.com to manage your prescriptions:

- Compare costs at local pharmacies
- Order and refill prescriptions
- Check drug costs and coverage

The high cost of medications is a major factor in increasing healthcare costs. We work to keep your out-of-pocket costs as low as possible with a broad retail pharmacy network with competitive rates.

You can lower your costs further by using these tips:

Choose generic drugs. Generic drugs are the same as brand-name drugs, but they cost much less. Be sure to ask your doctor if a less expensive generic drug is available the next time you need a new prescription.

Get prescriptions delivered. Mail order is ideal for prescriptions you take regularly. You can save on prescriptions through Express Scripts home delivery, part of your pharmacy benefit.

Receive an alert when you can save money. Rx Savings Solutions will send you an email or text message when you're spending too much on prescriptions. You can also compare drug costs. Access your Rx Savings Solutions account at myrxss.com/premera.

Matchmaker™ Behavioral Health

One in three adults report experiencing symptoms of depression or anxiety right now.* Change and uncertainty can take a toll on your mental health, and yet finding a mental health provider who is accepting new patients can be hard.

Matchmaker™ for Behavioral Health will connect you to a care provider based on your health plan, needs, and preferences. Any information you share with us is confidential. This service is available to all members on your Premera health plan at no out-of-pocket cost.

You can see providers in your plan network, both in person or virtually. Our Behavioral Health Matchmakers offer the extra support needed on your care journey by providing a list of in-network, outpatient providers who are accepting new patients. Copays or deductibles apply when you see a provider.

Call customer service at the number on the back of your ID card to request help finding a provider.

When you're ready, visit our resource center at premera.com/visitor/care-essentials/mental-health for additional information on your benefits, how to find care, and more.

Substance use treatment

Do you depend on substances more than you'd like? Or do you find that substance use negatively affects your daily life? Recovery is possible with these options.

Geography, time, or day are not barriers. You have 24/7/365 access to substance use disorder treatment with the support of a licensed professional.

7.7%
of the U.S. population experienced substance use disorder in 2019.¹

Boulder

Boulder is a digital clinic that offers long-term support and telehealth treatment for substance use, including alcohol and opioid use disorders—with treatment grounded in kindness, respect, and unconditional support.

Workit Health

Workit Health provides personalized treatment through therapy, coaching, and medication support—all in the privacy of your home. Recover on your terms and on your schedule, as part of your daily routine.
